COMMERCIAL GRADE INSULATED ORANGE TARPS

Western Rugged's Insulated tarps are light weight and flexible in order to remain pliable in cold weather, while still offering significant insulation.

Ideal as a concrete curing blanket, winter storage of temperature sensitive equipment and material for seasonal construction.

Moisture Resistant:

Fabricated with closed cell PE foam insulation which does not absorb water and therefore the R-value is maintained in damp and cold conditions. Can be used for concrete curing and ground thaw.

Lightweight and Flexible:

The use of closed cell foam provides a lightweight, compact blanket.

Durable:

The closed cell foam insulation will not sag. Waterproof woven poly fabric shell ensures long life and durability.

Specifications:

Brass eyelet every 2 feet, PE closed cell insulation 3/16" & R value 1.0

PRODUCT FEATURES

- * PE closed cell insulation 3/16"
- * Welded, rope reinforced hem
- * Brass eyelet every 2' ft
- * R value 1.0
- * UV treated
- * Mould + Mildew resistant
